**ADVOCACY AND EDUCATION  
CAMPAIGN**

**‘Rotary Pacific Says NO to  
Domestic and Family Violence’**

**When you consider that a woman is in more danger of physical or emotional harm by someone known to her in her own home than by a stranger on the street, we have to accept we have a major societal problem.**

**Violence against women starts with disrespectful behaviour. Our campaign is about stopping this at the start.**

The Rotary Pacific Says No to Domestic and Family Violence campaign has evolved over the past 6 years and has its main emphasis as a prevention strategy that aligns with the **Australian Government 'Stop it at the Start' national campaign.**

[www.respect.gov.au](http://www.respect.gov.au)

Further, after much consultation with stakeholders, Rotary is well placed to lead

and collaborate this campaign in our communities. Further we encourage clubs that are already working in this space to continue their great work. This campaign is very much an 'and' not an 'or' that may value add to what your club is currently doing in this space.

**'Stop it at the Start'** is a national campaign that aims to prevent gender-based violence by influencing change to attitudes and behaviours that support or condone gender-based violence. It takes a primary prevention approach to ensure adults play a role in the prevention of disrespect and violence supportive attitudes" (source: [www.respect.gov.au/the-campaign/about-the-campaign](http://www.respect.gov.au/the-campaign/about-the-campaign)).

- Hold a peaceful community walk, public rally or other event during the global 16 Days of Activism against gender-based violence, from 25 Nov to 10<sup>th</sup> Dec.

**What can your Rotary club do to further this campaign in your community?**

- Connect your club with local Police and work with them.
- Work with local Councils, Health, Education and agencies/organisations that work in the domestic and family violence space. Rotary has formed many formal and informal partnerships with both State and Federal Government organisations.

We have a formal partnership agreement with [NSW Police](http://www.nswpolice.nsw.gov.au) and formal support with [Qld Police](http://www.qldpolice.qld.gov.au). Through forming local partnerships, you can increase your impact, engagement and public image.

- Connect with local agencies that already have activities, eg Zonta.

## How can your club Create Impact and Expand Your Reach through this campaign in your community?

- This campaign is part of our Rotary Pacific Regional Council Club Transformation strategy.
- We have a successful case study in Ballina. Back in 2019 this Rotary club with 33 members made a transformation from being a fund-raising club to a club that connected to social justice issues such as Domestic and Family Violence and Mental Health. By 2021 their membership had grown from 33 to 76 and today have a membership of 86. Further, this club transformation can be objectively critiqued over the last 5 years with a member retention of over 90%, new member retention of 99% and a club gender balance with 48% women. Share one of the available Power Point presentations with your club. [www.rotaryclubofballinaonrichmond.org.au/rotary-zone-8](http://www.rotaryclubofballinaonrichmond.org.au/rotary-zone-8).
- The Domestic and Family Violence project is a major contributor to this membership growth. The club increased both member and community engagement, its public image, and as a result, has had a positive impact in their community.
- All the arduous work is done. You can download banners, core flute signs, drink coasters to use in clubs and pubs, and much more.
- Order our Rotary International approved Purple Shirts from [nationalworkwear.com.au/collections/rotary-collection](http://nationalworkwear.com.au/collections/rotary-collection). *Make sure to scroll down on the webpage and download the bulk order form to receive the special price of \$24 per T-shirt.*

## RESPONDING TO DISCLOSURES

If a member of the public or a fellow Rotarian shares with you about their current or past involvement in a Domestic and Family Violence situation or an abusive relationship, it is important to acknowledge that, while we are not trained professionals in this area, we are here to listen.
